

LAY DOWN LOW (Lebbink)

verse

See the damage done  
Look what it did to you  
It's got you on the run  
So where you going to?  
It's breathing down your neck  
No use turning back

refrain

You turn off and on like a traffic light  
You can't seem to make up your mind  
Travel under cover, hit the road at night  
The posse is right behind  
Be sure to stay down low

verse

Lay down low, boy  
Keep an ear to the ground  
So you can hear the green grass grow  
If you make no sound  
You smell the hounds on your track  
So better watch your back

refrain

You turn off and on like a traffic light  
You can't seem to make up your mind  
Travel under cover, hit the road at night  
The posse is right behind  
Be sure to stay down low

Real low - You gotta lay down low  
So slow - You gotta move real slow

So you lay down in the grass  
Cause you're oh so tired  
Just for a while  
But be careful: Don't...fall...a.....sleep  
"HEEEEEY!!!"

guitar solo

verse

Remember uncle Joe  
And the things he done  
Fled down to Mexico  
Shot down by Tommy Gun  
Look at the trouble that you're in  
You're gonna end up just like him

refrain

You turn off and on like a traffic light  
You can't seem to make up your mind  
Avoid the broad daylight  
The posse is right behind  
Be sure to stay down low

Real low - You gotta lay down low  
So slow - You gotta move real slow
