

WINTER IN VEGAS (Lebbink)

verse

A dark desert wind
Cuts through this bright shiny town
Where I've been counting my blessings
Since you're not around

refrain

This can't be the blues
I'm in Las Vegas
Having burgers almost twice my size
Or could this be the best blues
I've had in ages
It almost feels like paradise

verse

Lots of money in my pocket
Designer shoes on my feet
Nice and happy people
Strolling down the street

refrain

This can't be the blues
I'm in Las Vegas
Having burgers almost twice my size
Or could this be the best blues
I've had in ages
Almost feels like paradise

verse

Cruising cars, crowded places
In this town made out of gold
But it ain't much without you
It's not what I was told
- Feels like winter -

refrain

This can't be the blues
I'm in Las Vegas
Having burgers almost twice my size
Or could this be the best blues
I've had in ages
Almost feels like paradise

Can't be with you, can't be without
Can't be with you, can't be without
Rock 'n' roll & twist 'n' shout
Rock 'n' roll & twist 'n' shout
